THIS IS UNEVALUATED INFORMATION

1. In November, 1951 at the WFTU (World Federation of Trade Unions) meetings in Berlin, the decision was made to arrange an international conference dealing with the subject of social security. The WFTU secretariat has requested information regarding social security and social security legislation from various countries. Information has also been sought from various persons and organizations as to their willingness to participate in the conference, which is being planned on a very large scale. It is intended that the WFTU secretariat will publish a symposium which will be based on the information obtained before and during the conference. The conference will be held in June and the site will probably be Vienna.

2. Because of the great interest in the general question of social security, it is expected that participation in the conference will be wide-spread. The planners of the conference intend to promote the attendance of non-Communist delegates. It is believed that it will be unnecessary that all the delegates approve the agenda of the conference. The main objective is to secure the widest possible representation.

3. The preparatory committee, which met in Vienna in February of 1952, chose various sub-committees to handle arrangements for the conference. The committee has urged the establishment of preparatory committees in other countries for the purpose of advertising the coming conference in the factories, obtaining information regarding social conditions in the factories, and determining the shortcomings in and violations of existing social legislation.
